MEMORANDUM FOR THE RECORD

SUBJECT: Meeting of Mr. Colby, Senator Church, Staff/ Miller
22 July 1975

1. The Director and I met with Senator Church and Bill Miller at 1130 in response to the Director's request.

As a consequence the Director asked that the briefings be restricted, i.e., to the Chairman and Vice Chairman. Senator Church indicated that he appreciated the problem but wondered whether such a restriction might not create a problem within his own committee. It was suggested that perhaps two other senators be selected to receive the briefing, such as Senator Mondale and Senator Baker. Senator Church will discuss the matter with Senator Tower and we will hear from them.

2. In discussing the portion of the Senate Select Committee hearings dealing with covert activities, Senator Church indicated that it was not their purpose to go public with all covert activities. He indicated that the committee might want to have public hearings with respect to one or two such activities. During the discussion of covert activities, it was pointed out that the Marchetti book had no references to [redacted]

[redacted] had been deleted. This reminded Senator Church to ask whether all of the deleted material from Marchetti's book had been made available to the committee. (Walt Elder indicates that a SSC staff person has been examining the deleted material at Headquarters.)

3. The Director then pointed out that the June 26 letter with attachments created certain problems for the Agency in light of the sweeping nature of some of the document requests and the ability to see them in an unsanitized state. Mr. Colby said that he would be prepared to brief the committee on the domestic activities but that the mere scope of the document request was overwhelming and that we would have to work something out. Senator Church was relatively non-committal about this.

4. Finally the Director advised Senator Church that Senator Mansfield had concurred in the destruction of that portion of the [] file that raised privacy issues. Senator Church agreed with the proposition that the fact that such an investigation took place and the reason for the investigation should remain intact but that it would be appropriate to destroy or return to [] the portion that touched on his personal privacy.) Bill Miller reminded us that they wanted to be briefed on similar surveillances.
